

## The Advan Advantage

For many reasons, Advan is “The Natural Choice” for today’s turf and ornamental professional. Number one is innovative product solutions. Included are Basamid® G T&O – the only granular soil fumigant available anywhere – as well as fungicides, herbicides and insecticides containing the industry’s most trusted active ingredients. At the same time, Advan demonstrates its commitment to sustainability by

marketing biorational products with natural modes of action approved for organic use. The Advan allegiance to both traditional and biorational solutions provides the best of both worlds and gives today’s savvy distributors and end-users the flexibility required to do the job right – supported by technical expertise, quality service and value. No wonder doing business with Advan is a natural.

Advan Product Name	Active Ingredient	Formulation	Packaging	Comparable Product
